

JANUARY *Resolve to be Ready!*

Preparing for a disaster or emergency may be easier than you think. Begin by taking some small steps each month that will help you, your family and pets be ready when a disaster strikes. **Stay Kits** will provide essentials for 2 weeks after a disaster when you remain at home and stores may be inaccessible. Designate a closet, cabinet or other dry, cool area for storage. **Go Bags, Pet Kits** and **Car Kits** provide 48 hours of essentials in case you and your family need to leave quickly. Let's start building your Kits!

ACTION ITEMS for January. See LINKS for How-To information.

1. Resolve to be ready with Stay Kits and Go Bags. Start building yours now.
2. Make a family emergency plan and include a reunification plan. Discuss a family home evacuation plan and practice a fire drill. Establish and review assembly points.
3. Check emergency plans at your work and child's school. Establish a family out-of-state contact.
4. Sign up for preparedness training classes this year - [CERT](#) can help!

Stay Kit **HARDWARE LIST** (1 of 4)

- adjustable crescent wrench
- duct tape
- bungee cords
- extra phone charger, personal computer charger & cords

Stay Kit **GROCERY LIST** (1 of 11)

- 8 gallons of water (plastic containers should be replaced every 6 months)
- 4 large (32oz) sport drinks
- hand operated can opener
- instant coffee, tea etc.
- pet food and supplies for 1 week

Preparedness Calendar is for a family of 4 & 1 pet. Adjust to your needs.

Items to Install January and February

- ✓ strapping for hot water heater
- ✓ safety latches for cupboards
- ✓ smoke/CO detectors and batteries
- ✓ "Quake Hold" to secure figurines, vases
- ✓ L-brackets to secure furniture to walls
- ✓ hook-and-loop or other fasteners to secure movable objects

ACTION GOAL for 2022

EBMUD warns that water systems may be compromised for 3-7 days after a disaster and recommends storage of a 3-7 day supply of water. Additionally, EBMUD advises to *keep a container to obtain water* should emergency supplies run out. *That could mean waiting in line for water.* CERT recommends storage of at least 1 gallon per person/per day and more for pets for a **30-day supply of water**. Visit [Lamorinda CERT](#) to purchase Samson Water Storage containers. There are many options to fit your budget, needs, and preferences. These high-grade containers do **not** need to be replaced every 6 months. A Samson 30-gallon package will help your family begin to store the water needed. This calendar plan recommends adding, rotating, and replacing water and other beverages throughout the year to keep your Stay Kit & Go Bags ready. Replace plastic water storage containers every 6 months.

FUN FACTS

- Do not store plastic water containers on concrete. Harmful chemicals will leech through the plastic.
- Save those silica packs to use in your battery cache.

This calendar is designed to break down large tasks into monthly steps to be less overwhelming. The calendar lists many items to be purchased early in the year, before the distractions of the holiday season. While perishables must be replenished, hardware purchases should be mostly one-time expenses. Time purchases to work best for you!

FEBRUARY *Love Your Life!*

Show your home and your family some preparedness love this month. A few steps can begin to secure your home and avoid bigger problems during a disaster. Let's continue to work on your Stay Kit this month and complete some simple safety tasks.

ACTION ITEMS for February See LINKS for How-To information.

1. Build a first-aid kit for your Stay Kit.
2. Strap your hot water heater - top and bottom - to secure wall studs.
3. Install smoke/ Carbon Monoxide (CO) detectors.
4. Check around your home to ensure that heavy objects are secure and away from beds, couches and children's play areas.

Stay Kit GROCERY LIST (2 of 11)

- 8 gallons of water
plastic containers should be replaced every 6 months
- 4 16-oz cans fruit

- hand sanitizer/wipes

Assemble a small First-aid Kit for your car: aspirin/acetaminophen, adhesive bandages, your medications needed for 2-4 weeks, antiseptic, hand sanitizer, disinfecting wipes, personal toiletry items.

GOT WATER?

To access the water in your hot-water tank, first be sure that plumbing fixtures and the water heater are not submerged by water. Turn the electricity or gas off and turn off the water intake valve. Start the water flowing by opening the drain at the bottom of the tank and turning on a hot-water faucet. Refill tank before calling PG&E to restore your gas service. See LINKS for more info.

MARCH *It's Not Luck!*

It's not luck – It's being prepared! Understand the risks you and your community may face and prepare now. There are many benefits to preparedness, the most important of which is staying safe and having the tools and resources you and your family will need to recover.

ACTION ITEMS for March. See LINKS for How-To information.

1. Know your risks: Earthquake. Fire. Flood. Mobility.
2. Do you have renters or homeowners insurance? Does your current policy cover your current situation?
3. Review/Refine your emergency plans. Just starting? See links at right to get started.
4. Make it a habit to fill your car's gas tank when it reaches the half full mark. Gas stations may be inaccessible after a disaster.

FUN FACT

Do not store batteries inside your devices. The batteries will corrode and ruin the device. Instead, store the batteries, and a silica pack or two, in a small plastic bag.

MAY

Wildfire Preparedness Month

Every year, fires threaten homes and properties as a result of combustible debris and vegetation. Every property owner is ultimately responsible for managing their vegetation to meet Fire District requirements.

ACTION ITEMS for May. See LINKS for How-To information.

1. Identify two alternative routes out of your neighborhood. Practice traveling them.
2. Assess your home's defensible space. Rake, sweep and remove combustible fuel from your surroundings.
3. Clear debris around your house, roof, outbuildings, under decks and stairs.
4. Check your wood piles. They should NOT be closer than 30 feet to your home.
5. Can your home's address be seen clearly from the street day and night?

FUN FACT

Send text messages to reach family and friends after a disaster. Phone systems will likely be overwhelmed. Texts may go through while calls may not.

JUNE *Pet Awareness Month*

Pets are important family members too and their needs should be considered in your family's emergency plans. This month we're encouraging you to build a **Go Bag** for your pet. A little preparation now will avoid stress and critical time delays during an emergency or disaster. Summer celebrations can present safety challenges for your pets too – read the summer safety tips to increase your awareness.

ACTION ITEMS for June. See LINKS for How-To information.

1. Build your Pet's Go Bag. Don't have a pet? Check with a family member or neighbor who does.
2. Check your Stay Kit for pet supplies.
3. Place a Pet Alert sign by your entry door.
4. Keep an Emergency Pet Wallet Card in your wallet.
5. Practice putting your pet in a carrier.

5 TIPS

Summer pet safety

See LINKS for more info.

1. **Fireworks.** Loud sounds can frighten! Provide a safe, secure, and quiet place for pets.
2. **Sun & heat.** Lookout for signs of over-heating and thirst. Always provide water.
3. **Toxic chemicals.** Keep pets safe from insecticides, citronella products and toxic sprays.
4. **Party food.** Don't feed pets grapes, raisins, onion, avocado or chocolate. All are toxic.
5. **Hot cars.** Do not leave your pet in the car – even for a few minutes.

AUGUST *Digital Preparedness*

Rebuilding your life after a disaster will be stressful and challenging. Personal financial, insurance, medical and other records are crucial for starting the recovery process quickly and efficiently. Take steps now to prepare for your recovery.

ACTION ITEMS for August. See LINKS for How-To information.

Copy all items to a flash drive and up to the cloud (see Get Tech Ready link). Put the flash drive on your key ring, in your Go Bag, or ask someone out of the area you trust to hold in case of emergency. Perhaps all three?

- 1** Gather and scan your financial and legal records (or save the digital files).
Examples: Mortgage payments, bank records, retirement accts, estate planning, tax documents, titles to house and autos, etc.
- 2** Collect your personal and medical papers (pet info too!) Examples: Driver's license, Social Security cards, passports, birth certs, military ID, pet tags, list of medications, marriage/divorce papers etc. Scan and save.
- 3** Pull together your insurance and household documents. Examples: residence address and list of occupants, mailing address, employment info, insurance policies. Scan, and/or save digital files.
- 4** Prepare and save a list of all contacts including an out of state contact.
Examples: Names and contact info of children, spouses, family and out of state contacts. Photos of you, your spouse, family, and pets.
Keep a paper print-out of your contacts in your Stay Kit and Go Bag.

OCTOBER *Earthquake Preparedness Month*

The best time to prepare for a disaster is before one happens. Earthquakes happen without warning; you need to know what to do ahead of time. A small jolt can be the start of a bigger quake so do not delay. Get to safety and protect yourself right away.

ACTION ITEMS for October. See LINKS for How-To information.

1. Practice Drop, Cover and Hold On! Practice with your household.
2. Identify safe spots in every room – such as desks or tables.
3. [Secure your space!](#) using tips from Earthquake Country.org. Secure bookcases, TVs, artwork, top-heavy items, and secure smaller items with museum wax or Quake Hold.
4. Participate in national [Shake Out](#) day – third Thursday in October.

NOVEMBER *Holiday Safety*

If you plan to travel during the holidays, be sure to check weather forecasts, avoid driving in bad weather and be sure to have your **Emergency Car Kit**. When cooking, be mindful of fire risks.

ACTION ITEMS for November. See LINKS for How-To information.

1. Prepare an **Emergency Car Kit**.
2. Check expiration dates on your perishable items and replenish your food cache.
3. Test your smoke alarms and review home fire escape plan.
4. Practice safe kitchen habits: Stay in the kitchen when using the stovetop. Use timers to remind you of cooking times for oven and stove-top. Never use water to put out a cooking fire. Cover, use extinguisher or baking soda to put out a fire.

EMERGENCY KIT FOR YOUR CAR

In addition to the items you used to build your Go Bag, add these:

- Flares, blinking safety lights or reflective triangle
- Cat litter or sand for better traction in snow and ice
- Jumper cables or portable battery pack
- Car cell phone charger
- Maps
- Blanket
- Ice scraper

FRYING THE TURKEY?

Cook away from the house.

Set up more than 10' from your home.

Cook on flat ground. Hot oil should be always steady.

Be certain turkey is thawed and dry.

Water in hot oil will cause the oil to bubble and spill over.

Monitor the temperature.

Lids and handles get hot too!

Be prepared! Have a multi purpose fire extinguisher at hand.

This calendar is designed to break down large tasks into monthly steps to be less overwhelming. The calendar lists many items to be purchased early in the year, before the distractions of the holiday season. While perishables must be replenished, hardware purchases should be mostly one-time expenses. Time purchases to work best for you!

DECEMBER *Be Merry and Safe*

Winter holidays are a fun time in our communities but may pose additional risks. Following a few simple tips will help us all have a safe holiday season.

ACTION ITEMS for December. See LINKS for How-To information.

1. Put a fire extinguisher in your kitchen.
2. Build a support network. Talk with your neighbors about their needs and yours.
3. Discuss disaster plans with household, family and caregivers. If you or a household member have special needs, plan for skilled helpers to assist with evacuations.
4. Share keys with trusted friends to rescue your pets.

Stay Kit GROCERY LIST (11 of 11)

- 4 16-oz cans fruit
- 4 13-oz cans ready to eat meat
- 4 14.5-oz cans vegetables
- 4 20-oz cans ready to eat soup

Preparedness Calendar is for a family of 4 & 1 pet. Adjust to your needs.

- ✓ Choose decorations that are flame resistant or flame retardant.
- ✓ Replace any string of lights with worn cords. Check for indoor or outdoor use.
- ✓ Make sure that indoor holiday trees do not block exits and are at least three feet from any heat source such as fireplaces, radiators, space heaters, candles or vents.
- ✓ Ask smokers to smoke outside.
- ✓ Keep matches and lit candles away from children and pets.
- ✓ Use clips, not nails, to hang cords so the cords do not get damaged.
- ✓ Always sleep with your bedroom door closed. This simple act may buy you and your household time to escape a house fire.

In less than 30 seconds a small flame can turn into a major fire. "Today, with the prevalence of synthetic materials in the home, occupants have roughly 2 to 3 minutes to get out," said Consumer Safety Director John Drenenberg of Underwriters Laboratories (UL). Plan ahead – what are your escape routes out of your home? Practice using them.
